Usage: Dell™ Desktop Bluetooth Wireless Keyboard

[Using the Hotkeys](#) • [Using the Audio Cluster](#) • [Using the Application Key and Windows Keys](#) • [Lock Status](#)

Using the Hotkeys

Eight hotkeys are designed on this keyboard for performing the Internet browser functions and launching E-mail, My Computer, Calculator on the Windows[®] system. Each hotkey's function is described as following:

Hotkey	Function
 WWW Back	Back one page
 WWW Forward	Forward one page
 WWW Stop	Stop the browser
 WWW Refresh	Refresh this page
 WWW Home	Go to Home page
 E-mail	Launch E-mail
 My Computer	Launch My Computer
 Calculator	Launch Calculator

 **NOTE:** E-mail, My Computer and Calculator keys can be supported by Windows XP and further Windows versions.

 **NOTE:** You can use SetPoint to customize hot key assignments. To launch SetPoint either double-click the icon,  in the Windows[®] taskbar or at the **Start** menu, select **All Programs, SetPoint, Settings**.

Using the Audio Cluster

Audio Cluster provides quick, one-touch access to volume and audio functions on Windows system and described as following:

Audio Cluster	Function
	1. Volume Knob - Volume Up / Volume Down (turns right to left, no push button)
	2. Mute On / Off
	3. Media Stop
	4. Previous Track

Using the Application Key and Windows Keys

Application Key and two Windows Keys are the three specific keys on the keyboard for more convenient use on Windows system as following described:

Key Combinations	Function
Application key	The same shortcut menu as right-clicking the desktop while pressing this key
Windows key	Start Menu
Windows key + E	Windows Explorer
Windows key + F	Find Document
Windows key + M	Minimize All
Windows key + R	Display Run Dialog box
Windows key + F1	Display Help Menu
Windows key + TAB	Activate next taskbar button
Windows key + Ctrl + F	Find Computer
Windows key + Shift + M	Undo Minimize All
Windows key + Pause/Break	Perform a system function

Lock Status

Lock status is shown in the Windows taskbar region, not on the keyboard:

Troubleshooting: Dell™ Desktop Bluetooth Wireless Keyboard

If you have problems with your keyboard:

1. Verify that the batteries are new and properly inserted and that the keyboard is turned on.
2. Remove and reinsert the receiver.
3. If you still have a problem, restart your computer.
4. If you still have a problem, re-establish the connection manually. Press and release the Bluetooth buttons on the keyboard and on the receiver. Wait at least 20 seconds.
5. If you lose your connection after logon, follow the Connection Wizard's on-screen instructions to re-establish a connection.

If you need to enter Safe mode or the BIOS settings:

1. Turn off your computer, in the standard way.
2. Turn on your computer, and then immediately and repeatedly press the appropriate F key to do the following:
 - o **F2** to start the BIOS utility.
 - o **F8** to review the troubleshooting and advanced startup options such as Safe Mode.
 - o **F12** to select a temporary boot device.

Please read all [restrictions and disclaimers](#).

Introduction: Dell™ Desktop Bluetooth Wireless Mouse

[Overview](#) • [Features](#)

Overview

Dell™ Desktop Bluetooth Wireless Mouse

Features

The Dell Desktop Bluetooth Wireless Mouse has the following features:

- Scroll in all directions around a document or web page... up, down, left, and right, and navigate to a different page on the web, or to a different folder on your computer.
- Carry out a range of common tasks such as launch, switch and close programs, and cut, copy and paste information.
- Zoom in and out of documents.

Please read all [restrictions and disclaimers](#).

Manuals

[Back to Contents Page](#)

Usage: Dell™ Desktop Bluetooth Wireless Mouse

[Mouse Buttons Overview](#) • [Using the Left and Right Mouse Buttons](#) • [Using the Back and Forward Mouse Buttons](#) • [Using the Wheel](#)

Mouse Buttons Overview

Buttons assignments:

- 1 Main click
- 2 Contextual Menu
- 3 Roller & Wheel Button
- 4 Bluetooth Binding Indication LED (blue);
Low Battery Indication LED (amber)
- 5 Forward Button
- 6 Backward Button
- 7 Power On/Off Switch
- 8 Bluetooth Connection Button

 **NOTE:** You can use SetPoint to customize button assignments. To launch SetPoint either double-click the icon,  in the Windows® taskbar or at the **Start** menu, select **All Programs, SetPoint, Settings**.

Using the Left and Right Mouse Buttons

Your mouse has traditional left and right mouse buttons. It is initially set up with the left-hand button assigned the standard 'Click/Select' task, and the right-hand button assigned the 'Context Menu/Alternate Select' task. If you are left-handed you can reverse these basic functions to make your device more comfortable to use.

Using the Back and Forward Mouse Buttons

The Forward and Back buttons can be made to have actions that depend on the Microsoft Office application you're using. To do this, simply check the **Application Specific Settings** box in the SetPoint software.

 **NOTE:** This feature only works with some applications in Microsoft Office 2000, Office XP and Office 2003 applications, as listed below.

Forward and Back can navigate in the following ways:

Application

Microsoft Internet Explorer
Microsoft Word
Microsoft Outlook, Outlook Express
Microsoft PowerPoint
Windows Explorer

Forward/Back

Next page/ Previous page
Page Down/ Page Up
Next message/ Previous message
Next slide/ Previous slide
Next folder/ Previous folder

Unchecking the **Application Specific Settings** box returns Forward and Back to their standard functions.

Using the Wheel

Using the scroll wheel instead of clicking the scroll bars within your applications makes it easier to focus on a document's content. Gently rolling the wheel forward scrolls up a document, and rolling it backward scrolls down.

What's more, your mouse is equipped with a tilt wheel, so you can push it left and right if you want to scroll from side-to-side when you see horizontal scroll bars.

Your mouse also offers 'wheel-free scrolling', letting you scroll through pages more quickly without using the scroll wheel.

The scroll wheel can also be used as an extra button. You can click it like any other mouse button to carry out a task of your choice - for example to enable zooming or a different feature.

Introduction: Dell™ Desktop Bluetooth Wireless Receiver

[Overview](#) • [Features](#)

Overview

Dell™ Desktop Bluetooth Wireless Receiver

Features

The Dell Desktop Bluetooth Wireless Receiver has a Bluetooth connection, which is Bluetooth 2.0 compliant.

On the receiver is a small Connect button which can be used when connecting the mouse and keyboard.

The receiver enables you to connect up to 5 Bluetooth devices (e.g. Dell Axim PDA's, Bluetooth enabled Cellular phones, printers, headsets and stereo headphones) in addition to your Dell Bluetooth Mouse and Keyboard. However, simultaneous use of several devices may slow data transfer or increase response times.

Introduction: Dell™ Desktop Bluetooth Wireless Software

[Overview](#) • [Features](#)

Overview

The SetPoint software provides power and intelligence to your devices, making possible the advanced features that let you do what you want.

Features

The SetPoint software is launched automatically when Windows starts up, and must continue running for your device's unique features to work.

SetPoint runs silently in the background - you won't notice that it is running apart from the SetPoint icon,  in the Windows taskbar.

The SetPoint software lets you customize your devices to suit the way you work.

It's possible to connect other Bluetooth devices by right-clicking on the Bluetooth icon in the Windows taskbar, selecting **Add new devices** and following the instructions that come with the device.

Usage: Dell™ Desktop Bluetooth Wireless Software

[Launching SetPoint](#) • [Customizing your Keyboard and Mouse](#)

Launching the SetPoint Software

SetPoint runs silently in the background, as indicated by the SetPoint icon, , in the Windows taskbar.

If you want to customize your mouse or keyboard settings, do either of the following:

- At the **Start** menu, select **All Programs, SetPoint, Settings**.
 - Double-click the SetPoint icon in the Windows taskbar.
-

Customizing your Keyboard and Mouse using the SetPoint Software

Use the **Mouse** and **Keyboard** tabs to display the pages where you can use SetPoint to change your mouse and keyboard settings.

For example, you can customize the hotkeys on your keyboard or the buttons on your mouse to provide quick access to your favorite applications or web sites.

Refer to the SetPoint help for full information.

Troubleshooting: Dell™ Desktop Bluetooth Wireless Software

If SetPoint isn't running, you can restart it by selecting from the **Start** menu, **All Programs**, **SetPoint**, **Settings**.

If you want to disable your SetPoint software, right-click the SetPoint icon, , in the Windows taskbar and select **Exit** from the menu that appears.

 **NOTE:** The enhanced functions of your mouse and keyboard do NOT work when SetPoint is not running.

To uninstall the SetPoint software:

1. At the **Start** menu, select **Control Panel**.
2. Choose **Add/Remove Programs**.
3. Remove the **SetPoint** program.
4. When prompted to restart your computer, you can choose not to restart the computer.
5. Remove the **WIDCOMM Bluetooth Software** program.
6. Restart your computer when prompted.

 **NOTE:** Uninstalling SetPoint and the Bluetooth Software completely stops your Dell™ Desktop Bluetooth Wireless Keyboard and Mouse Bundle from working. We do NOT recommend it.

Regulatory: Dell™ Desktop Bluetooth Wireless Keyboard and Mouse Bundle

[Regulatory Information](#)

Regulatory Information

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment has been certified to comply with the limits for a class B computing device, pursuant to FCC Rules. In order to maintain compliance with FCC regulations, shielded cables must be used with this equipment. Operation with non-approved equipment or unshielded cables is likely to result in interference to radio and TV reception. The user is cautioned that changes and modifications made to the equipment without the approval of manufacturer could void the user's authority to operate this equipment.

The class B digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Regulations.

As for the Agency Approval, this keyboard is approved by:
